

ADEBISI-RUFUS RAYMOND O.

SOFTWARE DEVELOPER | FULL-STACK & MOBILE APPLICATIONS

Osun State, Nigeria • 08134673262 • adebisiraymond16@gmail.com
Portfolio: portiflio-delta.vercel.app • GitHub: github.com/Ayray23

PROFESSIONAL SUMMARY

Software Engineering graduate and Full-Stack and Mobile Application Developer experienced in building responsive web applications, cross-platform mobile apps and database-backed management systems. Skilled in React.js, Next.js, React Native, Flutter, Node.js, JavaScript, Tailwind CSS, Firebase and Supabase. Experienced in REST API integration, frontend implementation, debugging and developing practical digital products, including inventory management and student marketplace platforms. Focused on delivering reliable, user-centered software and collaborating effectively across development teams.

TECHNICAL SKILLS

Frontend	React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Vite, responsive design
Mobile	React Native, Flutter, Dart, cross-platform app development, mobile UI implementation
Backend & APIs	Node.js, REST API integration, API debugging, backend application development
Databases	Firebase Authentication, Cloud Firestore, Firebase Storage, Supabase
Tools	Git, GitHub, Vercel, Visual Studio Code, deployment workflows
Core strengths	Problem-solving, collaboration, communication, debugging, UI/UX implementation

PROFESSIONAL EXPERIENCE

Hibertech Solution and Programming Consult | Mobile App Developer 2025–Present

Contribute to cross-platform mobile application development and implementation. • Develop mobile interfaces using Flutter and Dart. • Integrate REST APIs and support application functionality across devices. • Collaborate with developers on implementation, debugging and delivery. • Maintain clean, scalable code and support ongoing improvements.

Strakins Tech Hub | Frontend Developer 2024–2025

Developed responsive web application interfaces and frontend features. • Built web interfaces using React.js, Next.js and Tailwind CSS. • Translated design concepts and requirements into functional user experiences. • Implemented UI improvements, supported cross-browser compatibility and debugged frontend issues.

SELECTED PROJECTS

StockPro — Inventory Management System | Live application

Inventory and point-of-sale management application supporting product administration, cashier checkout and business monitoring. Implemented product workflows, administrator/cashier roles and dashboard views for business statistics.

CampusMart — Student Marketplace | Live application

Student marketplace built with Next.js and Supabase. Implemented Google authentication, product listings, favorites, sold status and user profiles, with responsive buying and selling interfaces.

Inventory Web App — Version 1 | Live application

Inventory application focused on product tracking and reporting, with responsive interfaces and inventory features.

Requirements Elicitation and Management Tool (REMT) — Final-year project

Requirements management application developed using React.js, Vite, Tailwind CSS and Firebase. Designed workflows for classification, prioritization, status tracking, stakeholder traceability and activity tracking.

EDUCATION

Osun State University — Bachelor of Science in Software Engineering
2022–2026

ADDITIONAL INFORMATION

Language: English

Professional interests: Full-stack development, mobile applications, SaaS products, database-backed systems and digital solutions for public health.
